

The HOOP Series consists of roundabouts and spinners which drive the world of laughing children. Spinning is an important activity for the child's development as it promotes the maturation of the nervous system, stimulates the sense of balance, strengthens the muscles and the skeletal system. At the same time it is a source of exciting sensations. For an older child, it is often a favourite place of crazy fun with friends. Colourful carousels encourage both younger and older children to have fun together.
